

# Careers and the Graduate Employability Project: providing additional student support by enhancing existing faculty provision

Careers Advisers: Lena Bauchop  
Elaine Macdonald  
Claire Coleman

## FECCI

- Assist with student preparation for placement
- Create more opportunities for work based learning
- Develop personal development modules
- Offer more guidance appointments and student drop in sessions

## HLSS

- Increased number of embedded workshops for all schools
- Aiding implementation of Skills Passport model
- Providing more student drop in sessions
- Creating a range of opportunities for students and graduates to liaise/network with industry professionals.

## TBS

- Developing bespoke workshops linked to the academic curriculum e.g. *Get that Internship, Get That Job*
- Improving access to resources by making more information available online
- Arranging mock assessment centres for final year students
- Establishing a series of events to facilitate networking with employers
- Providing additional 1:1 student support via drop in sessions/guidance appointments

## Stand Out from the Graduate Crowd

A branded programme of workshops and events for recent graduates to improve graduate employability, graduate employment and links with Alumni.

## Project Objectives

- 50% of all full-time undergraduate students in all subject areas to be in graduate level employment
- Increase the number of graduates employed full-time in SMEs to 25%
- Achieve 83% of students in full-time graduate level employment
- Increase the overall graduate employability rate to 95%

## Student feedback

I am really grateful for all the help and events that the Careers Team run .....thanks a lot for helping me prepare for the assessment centres, going through the interview really gave me a the confidence I needed. Mock interview and feedback was very useful in preparing for future opportunities.
