

There are a number of easy ways to keep up to date with research. Rather than visit each of the major journals in your subject area, you can get the latest research to come to you.

Generally, the advice is to pick up eresource links from LibrarySearch <http://librarysearch.napier.ac.uk> Today, however, you will be asked to use the links provided or to Google. This is because there are some computing lab login issues.

Today, you can choose to set up one or more of the following:

- **Journal new issue alerts** – you will receive the table of contents
- **Search alerts** – these are set up across multiple journals on a particular database/publisher site.
- **RSS feeds** – these deliver tables of contents or new search results to your desktop (or a web-based feed reader).
- **Tables of contents services** – you can sign up in one location to get tables of contents from multiple journals.
- **LibrarySearch** – you can set up search alerts or RSS feeds to receive links to new records retrieved by your saved search.

New journal issue alerts

To set up a journal alert, you first need to create a personal account. Often you will need to validate a link sent to your email account before you can set up your alert. You can organise your email alerts by creating folders <https://support.office.com/en-us/article/Manage-email-messages-by-using-rules-c24f5dea-9465-4df4-ad17-a50704d66c59>

1. Google **Science of Computer Programming sciencedirect**
<http://www.sciencedirect.com/science/journal/01676423>
2. **Sign in** or register if you don't have an account.

The screenshot shows the ScienceDirect website interface. At the top, there is a green navigation bar with 'ScienceDirect' on the left and 'Journals Books' in the center. On the right side of the navigation bar, there is a 'Sign in' button and a 'Help' link. Below the navigation bar, there is a search bar and a section for the 'Science of Computer Programming' journal. The journal section includes a cover image, the title 'Science of Computer Programming', and several options: 'Supports Open Access', 'About this journal', 'This journal has an Open Archive', 'Get new article feed', 'Get new Open Access article feed', 'Subscribe to new volume alerts', and 'Add to Favorites'. In the center of the page, there is a login form titled 'Sign in using your ScienceDirect credentials'. The form has fields for 'Username:' and 'Password:', a 'Remember me' checkbox, and a 'Sign in' button. The 'Sign in' button is highlighted with a red box. Below the 'Sign in' button, there is a link for 'Forgotten username or password?'. To the right of the login form, there are links for 'OpenAthens login', 'Login via your institution', and 'Other institution login'. At the bottom of the page, there is a copyright notice: 'Copyright © 2016 Elsevier B.V. All rights reserved.'

3. Complete the registration form > Tick the box to confirm you're not a robot > select all images with grass/signposts/whatever and verify > Register.

3. You are then given the option to create an account.

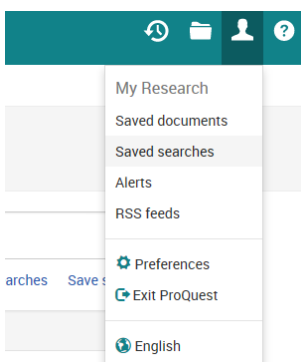

4. Then click **Search** or **Advanced Search** to perform a search.

5. Create alert.

6. Your saved searches and alerts can be edited in **My Research**.

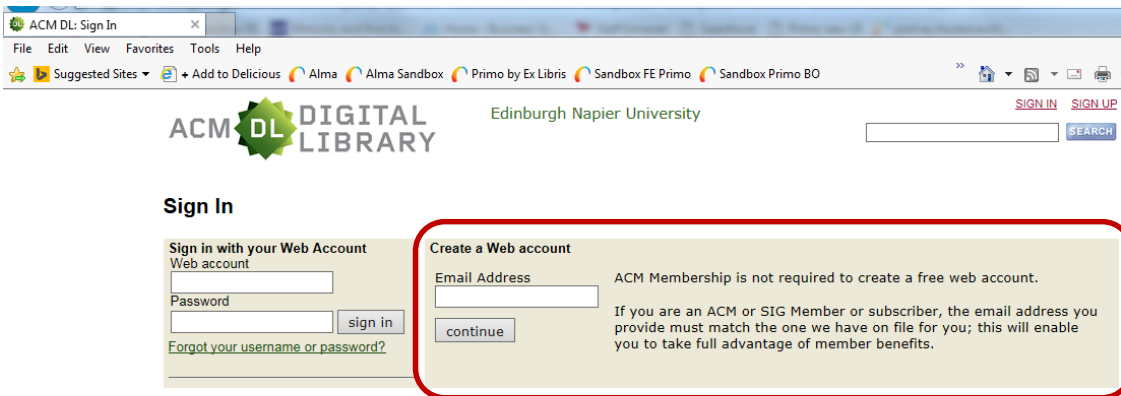

RSS feeds

RSS feeds require a “reader”. Internet Explorer has an inbuilt one. However, readers need to be added to Chrome and Firefox, and to all but the latest versions of OS X. Users of Windows 10 are advised to use Chrome or Firefox because Edge does not accommodate RSS feeds. More details can be found on the staff intranet [library pages](#)

1. Google **ACM digital library** <http://dl.acm.org/>
2. Click **Sign In** or **Sign UP**.

3. Create **Web account**.

4. You will be prompted to sign with your new username.
5. Search for **ACM Transactions on Internet Technology**
6. Click **RSS**.

7. Click on the star icon, then **Subscribe to this feed**.

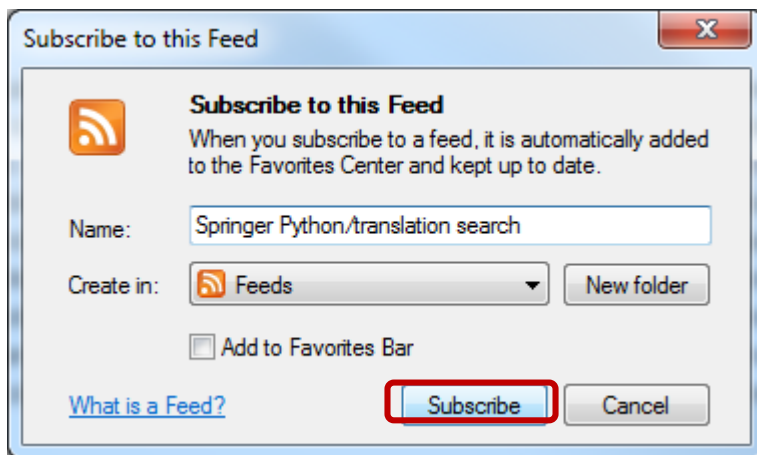

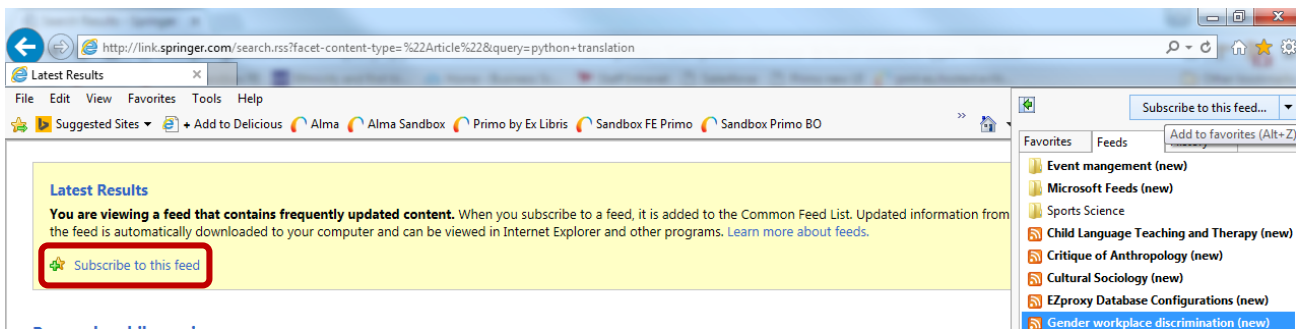

8. Then again on **Subscribe**. Your feed will appear in the list.

1. Google **Springerlink** <http://link.springer.com/>
2. Perform search.
3. Click **RSS** icon.

4. **Subscribe to feed.** Then **subscribe** again

5. The feed now appears in the list. Note that this is a saved search, rather than table of contents, alert.

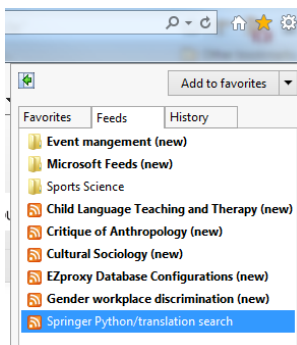

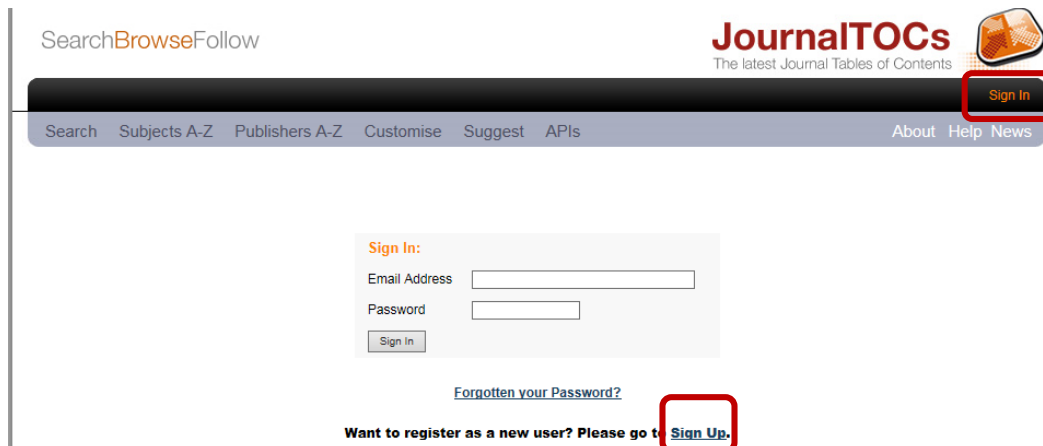

Table of Contents services

JournalTOCs is the largest, free collection of scholarly journal Tables of Contents (TOCs). It alerts you when new issues of your followed journals are published. You can also set up search alerts.

1. Go to <http://www.journaltoCs.ac.uk/>
2. Click **Sign In**, then on the next page **Sign Up**. A validation link will be sent to your email account. Then again **Sign In**.

3. Choose journal(s) by publisher or by subject.

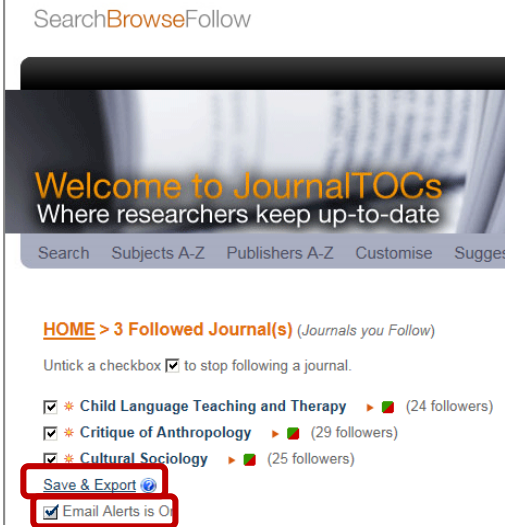

4. Select titles

5. Click on **Followed Journals**.

6. To receive up to 30 TOC alerts by email, tick the **Email Alerts** box.

7. To set up **RSS** feeds, click **Save & Export**. Select **Save as** and name the file, e.g. Sage.

8. Select **Import and Export** from the **Add to favourites** dropdown list.

9. Select the following options in turn from the dialogue box: **Import from file > Feeds > browse to where you've saved the file > Select and open > Select a destination folder for the feeds > Import**. See also <http://www.journaltocs.ac.uk/whatisOPML.html>

10. Your new feeds will now display in your RSS reader.

Search alerts

1. Sign in or set up account as above.

2. Perform search.
