

Moodle – Video Assignments

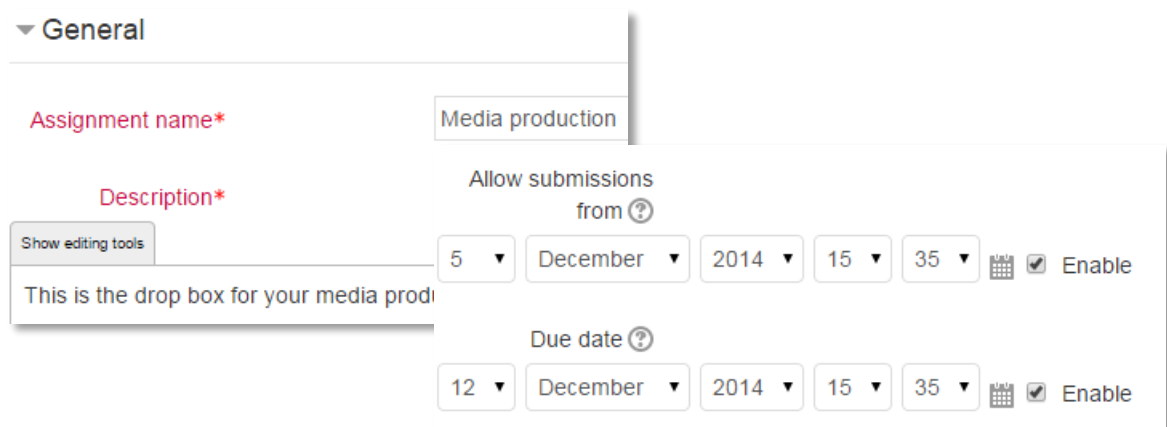

The Moodle-OVS plugin allows students to submit a video to a Moodle Assignment. The submitted video is actually stored in the student's OVS personal category which is a private category that can only be accessed by the student when logging into the OVS with their University ID and password. The Moodle assignment allows the tutor to view the submitted video from the student's personal category.

a) Create the video assignment

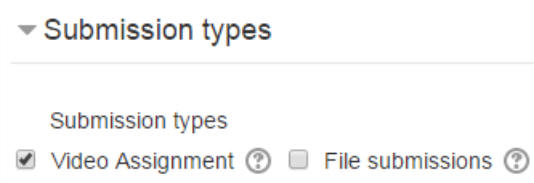

1. Turn editing on and select the assignment from the activity chooser

2. Enter a name, a description and the availability dates.

3. Scroll down to the **Submission types** section and ensure on the **Video Assignment** option is selected.

You should also check the settings in the **Feedback types**, **Notifications** and **Grade** sections.

4. Click **Save and return to course** and the assignment is visible on the course home page.

b) Viewing and grading a submitted video

1. Click View/grade all submissions from the assignment.

Due date	Friday, 12 December 2014, 3:35 PM
Time remaining	Assignment is due

View/grade all submissions

Submission status

2. Click the **View submissions** icon for a student.

c) Providing video feedback

The Moodle-OVS plugin enables the tutor to upload a video their personal category on the online video server. However the current version of the plugin does not allow this video to be embedded in the assignment feedback area (Moodle strips out the embed code).

A workaround for this is to use the OVS activity to add a video to the course page, and to set the restrict access options for the individual student.

The screenshot shows the 'Restrict access' configuration for a Moodle activity. Under the 'Restrict access' section, the 'User field' is set to 'ID number', the operator is 'contains', and the value is '88015459'. Below this, a 'Save as' button is visible next to the activity name 'Video feedback'. The activity is shown in a preview state with a green icon and the text '88015459 video feedabck'. A restriction message is displayed: 'Restricted (completely hidden, no message): Not available unless your ID number contains 88015459.'

This URL can then be inserted into the assignment feedback area as a standard link.

The screenshot shows a 'Feedback comments' editor in Moodle. The editor includes a rich text toolbar with options for font family, font size, paragraph, bold, italic, underline, text color, background color, bulleted list, numbered list, link, unlink, insert image, and insert video. The text area contains the message: 'Please find your video feedback:'.

Appendix: Student guide to submitting video assignments

When you submit a video to a Moodle assignment, the video is actually stored in your personal category of the Online Video Server. This is a private category that can only be accessed by logging into the <http://onlinevideo.napier.ac.uk> with your University ID and password. The Moodle assignment allows your tutor to view the video from your personal category, but no other videos.

1. Click the assignment link on your Moodle course home page.

2. Click **Add submission** and then **Browse/Upload**.

LOGIN 

3. Enter a title and description and click **Next**.

The screenshot shows a web form titled 'Upload' with three tabs: 'Details', 'File', and 'Thumbnail'. The 'Details' tab is active. Below the tabs, there is a heading 'Add New Media - Please enter the media's metadata below.' followed by four input fields:

- Title ***: A text box containing 'Assignment Submission (Media production)'.
- Category ***: A dropdown menu with 'Personal' selected.
- Description ***: A text area with '923 characters left' and the text 'A documentary about the social issues facing Scotland's immigrant population.'
- Email Address ***: A text box containing '123456@live.napier.ac.uk' with a note below it: '(we need this to notify you when your media has been encoded.)'

4. Click **Browse** to choose a video file from your computer to upload.

Please note the maximum allowed upload size is 1.95 GB.

Allowed file extensions are *.mov; *.avi; *.wmv; *.flv; *.mpg; *.mp4; *.mp3; *.wav; *.wma.

The screenshot shows a file selection interface. It features a label 'Select a File:' followed by a dark button with the text 'BROWSE' and a right-pointing arrow. Below this, there is a light grey box containing the text 'Uploaded File: student1.mp4'.

5. Click **Next** and choose a thumbnail and click **Next**. You can add any associated files as instructed by your tutor. Enter a title and then **browse** for a file.

The screenshot shows a section titled 'Add Associated Files'. Below the title, there is explanatory text: 'Please note the maximum upload size is 10MB, with a maximum of 3 associated files per video. Allowed file extensions: *.doc;*.docx;*.ppt;*.pptx;*.xls;*.xlsx;*.pdf;*.swf;*.jpg;*.gif;*.htm;*.txt;*.zip;*.mp3'. At the bottom, there is a form with a label 'Title:' and a text box containing 'Storyboard', followed by a dark button with the text 'BROWSE' and a right-pointing arrow.

- At the confirmation screen, check the details and click **Finish**.

- This has uploaded the video to your personal category. Click **Save changes**.

- The submission status confirms the date and time, and the option to preview the video. Depending on the settings you may be able to upload a newer video before a final submission.
