

Plagiarism Checking of Submissions to Moodle Assignments

Moodle Assignments have been limited by the inability to provide plagiarism checking, and Turnitin Assignments are limited by the inability to support group submissions. Moodle Assignments now include a Turnitin plagiarism plugin so an originality report can be generated for any paper submitted by a student individually or on behalf of a group.

| Username | Status | Grade | Edit | Last modified (submission) | File submissions |
|----------|---------------------------------|---|----------------------|--------------------------------|--|
| bbbwt08 | Submitted for grading Graded | Grade 75.00 / 100.00 | Edit | Monday, 30 July 2018, 12:13 PM | Napoleonic_Wars.docx  Turnitin ID: 91462430  |

Tutors can use the feedback tools in the Moodle Assignment or in Turnitin Feedback Studio, and any grade entered in one will update the other, ie. grades are synchronised. However it is recommended that grading and feedback takes place within the Moodle Assignment as only it has a grade item in Moodle Grades.

75 / 100

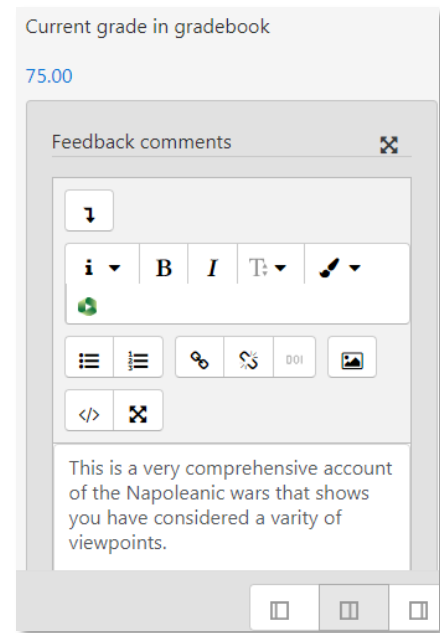

Group submissions

The Moodle Assignment has settings designed for group submissions whereby a student can submit a document on behalf of the group, and the tutor's marks and feedback are distributed to all members of the group simultaneously.

| Username | Status | Group | Grade | Edit | Last modified (submission) | File submissions |
|----------|---------------------------------|--------------|---|----------------------|---------------------------------|---|
| bbbwt04 | Submitted for grading Graded | Test group C | Grade 52.00 / 100.00 | Edit | Tuesday, 24 July 2018, 12:18 PM | lorum ipsum.pdf  Turnitin ID: 91461363  |
| bbbwt05 | Submitted for grading Graded | Test group C | Grade 52.00 / 100.00 | Edit | Tuesday, 24 July 2018, 12:18 PM | lorum ipsum.pdf  Turnitin ID: 91461363  |
| bbbwt06 | Submitted for grading Graded | Test group C | Grade 52.00 / 100.00 | Edit | Tuesday, 24 July 2018, 12:18 PM | lorum ipsum.pdf  Turnitin ID: 91461363  |

While all students will be able to see the % similarity score, the actual originality report is only available to the student who submitted the paper (and to the tutor).

Therefore all feedback comments must be made using the Moodle Assignment tools as any comments in Turnitin Feedback Studio would only be available to the student who submitted the paper.

Enabling Turnitin plagiarism checking in a Moodle Assignment

There is a section in the Moodle Assignment settings to configure the Turnitin plugin, and these will apply regardless of whether the assignment is for an individual or a group submission. The plugin does allow for a Feedback Studio rubric to be attached to the assignment but this is not recommended. All feedback should be made using the Moodle Assignment tools which include rubrics and grading forms, and these are selected from the *Grading method* setting within the *Grade* section.
