

## Installing Panopto on a personal computer

1. Firstly check that an Apps Anywhere version of Panopto is not in your CloudPaging player, and remove if required.

2. Sign-in to Panopto either from <a href="https://napier.ckoud.panopto.eu">https://napier.ckoud.panopto.eu</a> or from the Panopto block by clicking Course Settings (not the download link which is an old version).
