Closing Remarks

Implementing Change in Organisation - Tips and Tricks

Steve Yorkstone enables continuous improvement in Edinburgh Napier University, where he works as an internal consultant. In his role he facilitates and runs interventions, from 'process reviews' to tailored workshops, and more.

Steve will close the session by discussing how to go about creating change in an organisation using scenarios he has been a part of. Steve's case studies will highlight how small things can make a big difference and how to keep doing what is right in a chaotic world.

Participants will also have the opportunity to take part in Edinburgh Napier University funded research.
