

# Keeping up to date with research: SLSSS

There are a number of easy ways to keep up to date with research. Rather than visit each of the major journals in your subject area, you can get the latest research to come to you.

Generally, the advice is to pick up eresource links from LibrarySearch <u>http://librarysearch.napier.ac.uk</u> Today, however, you will be asked to use the links provided or to Google. This is because there are some computing lab login issues.

### Today, you can choose to set up one or more of the following:

- Journal new issue alerts you will receive the table of contents
- Search alerts these are set up across multiple journals on a particular database/ publisher site.
- **RSS feeds** these deliver tables of contents or new search results to your desktop (or a web-based feed reader).
- **Tables of contents services** you can sign up in one location to get tables of contents from multiple journals.
- LibrarySearch you can set up search alerts or RSS feeds to receive links to new records retrieved by your saved search.

### New journal issue alerts

To set up a journal alert, you first need to create a personal account. Often you will need to validate a link sent to your email account before you can set up your alert. You can organise your email alerts by creating folders <u>https://support.office.com/en-us/article/Manage-email-messages-by-using-rules-c24f5dea-9465-4df4-ad17-a50704d66c59</u>

- 1. Google Springerlink Journal of Child and Family Studies http://link.springer.com/journal/10826
- 2. Log in or Sign up for an account.

- 3. Once signed up you will be taken back to the journal home page.
- 4. Click Register for journal updates.

### **RSS** feeds

RSS feeds require a "reader". Internet Explorer has an inbuilt one. However, readers need to be added to Chrome and Firefox, and to all but the latest versions of OS X. Users of Windows 10 are advised to use Chrome or Firefox because Edge does not accommodate RSS feeds. More details can be found on the staff intranet <u>library pages</u>
