## A Network Fit For The Future: Vision for Scotland's Public Electric Vehicle Charging Network

People have access to a **well-designed & comprehensive** public network of charge points.

The public electric vehicle network **works for everyone** regardless of age, health, income or other needs.

Scotland has attracted **private sector investment** to grow the public electric charging network, ensuring it **meets the needs of all people**.

The public charging network is **powered by clean, renewable energy** & drivers benefit from **advancements in energy storage, smart tariffs & network design**.

People's first choice wherever possible is **active & public transport** with the **location of electric vehicle charging points supporting those choices**.

# ZEV Mandate

- AKA the Vehicle Emissions Trading Schemes.
- Not to be confused with the 2035, or possibly 2030 ban on the sale of petrol and diesel vehicles.
